#41 Woodward School: St. George District School House, completed 1901. This building stands on northwest corner of Public Square. This is view of northeast corner of the building.

It is called Woodward School. In honor of George Woodward who contributed for its erection about \$3,000. The main entrance is on the west side of building facing the Kelsey Corner. The inscription stone is above this entrance. I have just lately changed the inscription from District School to Woodward School. (Written on back of picture by G. B.)

#106 Fourth (St. George) Ward Schoolhouse completed in 1868. The fourth Ward building was located on lot 6, block 29, plat A. It was a two-story building erected by Willis Coplin, but was not completed as planned. Willis Coplin, Richard Morris and Richard Bentley were the school Trustees at that time.

In 1869, Richard Horne taught the higher-grade school in the upper room of this building; the lower grade teacher, Mrs. Purse, using the basement. The first, second and third ward buildings were used five days a week for school, and Sat. and Sun. for church activities. The Fourth Ward building was used for school only as the St. George Hall was used for church gatherings until the completion of the Tabernacle basement, when it was used for meetings and religious services for the Fourth Ward. (*Immortal Pioneers* by Albert E. Miller, Pages 120, 123, and 125).
